

LIVING ART BY LEAH CUSTOM ART CLASSES

Invite your guests to relax & have fun as they learn new and exciting painting techniques which explore the fundamentals of reverse-painting!

Every guest will be given prepared glassware, pre-ordered with the layout and wording of their choice, and all supplies.

Through a two-hour immersive workshop with Leah of Living Art By Leah, they will design and bring to life their very own piece of functional art-ware!

Classes are held at your location or at a studio in Lake Worth, and kept small. We require only 10 guests to book, and we cap at 25 to avoid overcrowding.

Raise funds for your organization!

Include a Living Art by Leah table display and we will donate 20% of sales generated during your class to your organization, as well as a piece to raffle off to participants!

We pride ourselves on our service to our community and our clients

Make it a Multi-Part Class Series!

Living Art by Leah's signature style of functional art is comprised of a minimum of three layers of custom reverse-painting. It begins with reverse writing, followed by painting the design (which can take many layers to achieve), and then completing the painted back.

When you choose a multi-part class series, guests will start with a blank piece of glass and learn how to do every aspect of this art style, coming away with a piece that is wholly their creation!

We will consult together to decide class options for your guests, including the selection of pieces to paint.
